

Energy Traders Europe and Nordic Association of Electricity Traders (NAET) Join Forces for Market Integration Strategic Partnership Announced at NAET Annual Conference in Turin

Brussels, 20/04/2026

Energy Traders Europe is pleased to announce a new strategic partnership with Nordic Association of Electricity Traders (NAET). The cooperation was officially sealed with a Memorandum of Understanding (MoU), signed during the NAET Annual Conference in Turin by Lorenzo Biglia, Director for European Electricity Markets at Energy Traders Europe and Trond Strøm, President at NAET.

Barbara Lempp, Chief Operating Officer of Energy Traders Europe, highlights the importance of building strong connections across the energy sector, especially in challenging times: "Staying close to national energy associations is more important than ever as we face geopolitical challenges and rising national interests. Only by working together can we speed up market integration and reduce Europe's global dependencies."

This partnership is founded on the shared belief that collaboration is key to progress. "The 'Integrate by 28' Roadmap gives us the best foundation to identify the regulatory changes needed for a more connected and resilient energy market", Barbara Lempp stated.

Energy Traders Europe and NAET call on all stakeholders to join efforts, so that market integration can move forward faster, making Europe stronger and more independent.
