

Energy Traders Europe Forms Strategic Partnership with Ukrainian Public Association “Energy Union”

Brussels, 23/03/2026

We are proud to announce that Energy Traders Europe has signed a Memorandum of Understanding with the Ukrainian Association of Energy Union, reinforcing our commitment to support Ukraine’s energy integration with Europe.

In the face of extraordinary challenges caused by Russia’s war of aggression, Ukraine’s energy sector has demonstrated remarkable resilience.

Barbara Maria Lempp, COO of Energy Traders Europe, said:

“We often say that the purpose of the energy sector is to keep the lights on and homes heated. In Ukraine, this is not an abstract idea, but a daily reality. This memorandum not only strengthens our cooperation, it is also a clear signal of our support for Ukraine and its energy sector in these challenging times.”

We look forward to working with Energy Union to support a resilient and competitive European energy market.”

Olha Tahieva, Head of PUBLIC ASSOCIATION “ENERGY UNION”, stated:

“We sincerely thank you for your cooperation and for the support you provide to our business in these challenging times for Ukraine. For us, this is not only a professional interaction, but also an important signal of trust, partnership, and a shared vision for the development of the energy market.

For Ukrainian energy traders, cooperation with European colleagues is of strategic importance. This partnership opens new opportunities for professional dialogue, exchange of practical experience, and deeper integration of the Ukrainian electricity market with the European energy market.”

Within the framework of this cooperation, Energy Traders Europe and PUBLIC ASSOCIATION “ENERGY UNION” will work together to support a resilient, transparent, and competitive European energy market.
